GDRTOKEN

Good Driver Reward Token

ABOUT US

We are striving to build a token and application that will incentivize safe driving for everyone with $GDRT rewards while also helping to bring mass awareness to cryptocurrency and the Cronos blockchain.

The long-term utility for $GDRT is to be the olive branch in uniting cryptocurrency and insurance together. Having large insurance carriers and insurance brokerages adopt $GDRT into their insurance programs as an incentive to help lower accident claims and reduce overall exposure to losses for insurance companies would benefit both the driver and insurance company.

Drivers would get rewarded for driving the speed limit with our application and now that same driver can be rewarded a $GDRT reward bonus from their insurance provider or brokerage if they offer a $GDRT Rewards Program.

An additional benefit to our token is that the contract is a rewards utility token contract on the Cronos Chain. Holders will receive $CRO rewards based on number of owned $GDRT and market volume, just for holding $GDRT in their wallet.

GDRToken APPLICATION

The GDRToken app is already functional on Android and iPhone (beta mode). Once a driver's speed reaches 15 MPH the GDRToken application will automatically start accruing GDRT Rewards for drivers who are within the speed limit based off our API integration.

Currently Version (beta):

- Free Download
- Reward rate: 0.02 GDRT Rewards per 10 miles. (Beta Mode Testing)

Final Version Goal:

- Free Download
- Wallet Integration
- Early User Airdrop Reward
- GDRToken Cro Rewards NFT Utility Integration
- GDRToken Founders NFT Utility Integration
- Referral Program (0.01 GDRT Rewards per 1 miles driven by referral)
- Earn GDRT Rewards that converts into $GDRT (Conversion Rate = 1 to 1)
- Reward rate: 5 GDRT Rewarded per 1 mile. (AFTER BETA MODE)

Minting Details:
Supply: 3001
Minting Date: June 24 at 5pm UTC
Mint price per box: 450 $CRO

After full minting of the GDRTOKEN Box we will purchase and hold 20T $CRK in a wallet to give $CRO rewards to the GDRTOKEN Founders NFT holders based off the trading volume of $CRK.

GDRTOKEN will also purchase another 15T $CRK for the holders of our first ever GDRTOKEN CRO Rewards NFT. This purchase will bring the total holding to 20T $CRK in the CRO Rewards wallet. Rewards going to the wallet are airdropped to the holders of the GDRTOKEN CRO Rewards NFT.

NFT UTILITY INTEGRATION

All of our NFT's will offer a utility to the holders. We pride ourselves on giving back to the community that shows it's support for Good Driver Reward Token Inc.

We currently have 1 NFT that is part of our ecosystem with another NFT on it's way.

GDRToken Cro Rewards NFT
Supply: 3001
Minting: Fully Minted Out

A GDRToken Rewards Wallet with over 5 Trillion $CRK is currently held to earn $wCRO rewards from the trading volume of $CRK. Holders of our GDRToken Cro Rewards NFT get random airdrops of $CRO from the GDRToken Rewards Wallet. $CRO airdrop rewards are based on the volume of $CRK.
